APPLICATION PACKET

Who Are We?

The Dasvandh Network is a 501(c)(3) charitable organization with a vision to inspire a new level of giving to Panthic and related charitable projects across North America by providing awareness, transparency and accessibility to these efforts.

We have two main goals:

- 1. To inspire a new level of giving within the community.** In order to do this, we have developed an online Sikh social giving platform – the Dasvandh Network – which will raise awareness and increase accessibility to charitable projects.
- 2. To ignite Panthic and related initiatives by removing resource constraints.** The Dasvandh Network hopes to provide a reliable stream of funding to projects, providing them the ability to focus on program development vs. fundraising. In addition, the DVN Mentor Network will provide strategic advisory to teams in need from established professionals.

What does this mean for you?

Your project or organization can apply to the Dasvandh Network to appear on our online platform and obtain exposure to Sikh donors.

What we offer to organizations and project teams:

- Creating new donors within the community.
- Raising awareness of projects.
- An efficient way to fundraise.
- An ability to focus on program development.

Our Approach

In order to accomplish our goals, the Dasvandh Network has a long-term view of achieving our mission. We realize:

- To have a sustained impact we must inspire the next generation of donors and grow alongside them.
- We must build trust with the community through a track record of transparency, efficiency and impact.
- We must cultivate, encourage and support emerging activists within the community interested in undertaking projects in order to ensure a significant number of quality projects are being executed.

Here's how it works:

DVN will serve as an online marketplace of panthic related projects accessible to donors.

Project Admins

- Projects and organizations go through an approval process to assess their suitability for appearing in the online marketplace (more on this below).
- If approved, each project will specify project details including a goal and total donations will be publicly displayed (projects should provide media elements to connect with donors as well, including video or pictures).
- These details must be refreshed on an ongoing basis (at least monthly or quarterly based on project type)

Donors

- Donors can search or filter for projects based on different criteria - such as size, location, mission, etc.
- Donors can contribute to either projects or approved organizations.
- Donors can make recurring or one-time payments.
- Donors can become a fan of a project or place comments under a project.

DVN

- DVN provides comprehensive reporting to project teams detailing the funds that will be deposited into their account on a monthly basis.
- DVN provides easy access for donors to see the projects they have contributed to and the progress that has been made following the donation.

The Application Process

The application process works as follows:

1. Application and supporting materials are submitted.
2. DVN approval committee reviews application and carries out its due diligence process. (DVN will likely have follow-up questions for the applicants)
3. A project is then either approved, asked to re-apply with more information, or is denied. If a project is not approved, a project will have a chance to get feedback on why it was not approved.

How do we decide on suitable projects and organizations?

Once your application arrives with DVN's Approval Committee, we will score your project to determine its suitability for the DVN community. We review your project or organization by looking at the following areas:

- Value of project to community / humanity
- Robust plan on what is to be accomplished
- Financial feasibility & seed money raised by applicants or contributed themselves
- Credibility of individual or team
- Project plans to track and measure effectiveness
- Gurmat-aligned (See Adherence to Sikh Principles below)
- What type of help is needed (how much money or guidance)

In addition to the written application, the DVN approval committee may also carry out background/reference checks and conduct interviews as deemed necessary to further assess your application.

Adherence to Sikh Principles

A key tenet of DVN is to be as inclusive as possible; this is directly in line with the stated goal of being a trusted vehicle to make Panthic and Sikhi-aligned projects accessible to the Sikh community. We are very focused on being a constructive and unifying force within the community. However, to keep the promise of being a trusted platform, we must ensure that the projects made available on the network and the organizers of the projects are not at odds with Gurmat (the Guru's direction). There will be two major categories of initiatives featured on the Dasvandh Network:

1. Panthic projects (e.g., parchaar/education, civil rights, humanitarian, legal defense)
2. Sikhi-aligned projects (e.g., humanitarian efforts, human rights advocacy)

For Panthic projects, organizations or projects may be listed as long as they are approved using the above criteria, and:

1. The organization and/or project team confirms their agreement with the philosophy presented in the Sri Guru Granth Sahib and Sikh Rehat Maryada
2. The organization and/or project team has not demonstrated any anti-Gurmat activity, as guided by the Sri Guru Granth Sahib or Sikh Rehat Maryada, or noted by the Akal Takht through the signing of a standard affirmation.

While it is not the intent of the DVN Approval Committee to exclude any beneficial projects from listing on the Network, in order to maintain the Dasvandh Network as a trusted and respected donor vehicle, a level of screening is required.

* The decision for listing will be at the sole discretion of the DVN ARC Committee and is final
